

Growing Native Country Chicken in the Backyard for Eggs as Supplementary Income in Pandeswaram Village, Thiruvallur District, Tamil Nadu

As part of our mission to enhance rural livelihoods, Thondaimandalam Foundation funded the provision of 180 one-month old Aseel-cross chicks to 12 households across 6 wards in Pandeswaram village, Thiruvallur District on 29th August, 2020. The total cost of procurement and distribution of the chicks amounted to Rs.18,000. The native country chickens will be maintained by the beneficiaries, and the country eggs produced by the chickens will be bought back by the Village Panchayat. We believe that this program will help as an additional source of income to the economically marginalized households.

To

The Panchayat President,
Pandeswaram,
Thiruvallur District,
Tamil Nadu

As part of enhancing the rural livelihoods mission of Thondaimandalam Foundation, we are providing 180 one-month old chicks of Aseel-cross breed chickens to the Panchayat of Pandeswaram, Thiruvallur district, Tamil Nadu. These chicks are to be distributed to different households for the primary production of native country chicken eggs. In this project, Thondaimandalam Foundation handles the responsibilities of procurement and delivery of the chicks, whereas the Pandeswaram Panchayat will take up the responsibilities of procurement of eggs from the beneficiary households, maintenance of chicken, as well as collection of important data such as mortalities, eggs procured and income generated. We believe that this project will help in sourcing an additional source of income for economically marginalized households.

Sincerely,

Trustee,
Thondaimandalam Foundation
